

National Garden Clubs, Inc. Mission Statement

NM Garden Clubs, Inc. supports and promotes National Garden Clubs, Inc. mission statement of providing education, resources and national networking opportunities for its members to promote the love of gardening, floral design, civic and environmental responsibilities.

Educational Classes

New Mexico Garden Clubs offers many educational programs throughout the year. Flower Show Judging School, Environmental School, Garden Study School and Landscape Design School.

Garden Club meetings offer an opportunity to learn too; with each club having a monthly educational program in conjunction with a meeting.

What We Do:

Our Story:

Our organization was federated in 1950, as a member of National Garden Clubs, Inc. We are part of National Garden Clubs, Inc. South Central Region, along with the states of Texas, Oklahoma and Arkansas.

Today, we have 27 clubs and over 500 members actively working to support the aims and goals of National Garden Clubs, Inc. with whom we are affiliated.

We have adult and youth Garden Clubs all around New Mexico, including: Albuquerque, Santa Fe, Los Alamos, Angel Fire, Santa Rosa, Roswell, Las Cruces, Artesia, Farmington, Moriarty, Socorro, Silver City, Truth or Consequences, Alamogordo, Los Lunas, Cloudcroft and Ruidoso

New Mexico Garden Clubs, Inc. is a 501 (c) (3) nonprofit corporation and organization dedicated to promoting the love of gardening and the preservation of our environment.

Education:

Another important part of New Mexico Garden Clubs, is education. Flower Shows, Garden Tours, Club Meetings and other programs enlighten both members and guests in all aspects of growing, showing, designing and maintaining horticulture. We work also with other institutions, groups and plant societies to make our communities better places to live.

New Mexico is not all desert! We have high mountains, mesa lands, beautiful rivers, high plains and salt flats. Within and surrounding these valleys, and sitting on the high mountains we have many garden clubs members bringing beauty to their communities large and small. They are creating, educating, learning, and making friends wherever they live, play, work or go in New Mexico!

Projects:

Our projects in, around and beyond New Mexico, include ecological and environmental concerns, such as, providing gardens for wildlife, birds, and butterflies, conserving water, litter control, recycling and roadside plantings. We honor our service people and veterans by dedicating Blue Star Memorials. We help Habitat for Humanity recipients beautify their yards and gardens.

We encourage youth by offering youth projects: the High School essay scholarship contest, youth poetry contest, smoky bear and woodsy owl poster contest, a girl scout patch, and, a *college scholarship program*.
